About this Report

As part of the effort to provide residents the opportunity to rate the quality of life in Littleton and their satisfaction with community amenities and their local government, the City conducted a scientific survey of 5,000 households within city boundaries. Survey invitations were sent to randomly selected households in June 2022 and data were collected through July 19, 2022. The survey invitations also contained a URL where the survey could be completed online on Polco. After the official data collection period was underway (see the report, *The Littleton Resident Survey Report 2022*), the City of Littleton made available a web-based survey to its residents through a link on the City's website and other various communication avenues. Residents were able to complete the survey for two weeks in July 2022 and 128 residents responded. This report contains the results of this open participation administration of the web-based survey.

These data were not collected through a random sample and it is unknown who in the community was aware of link on the City's website; therefore, a level of confidence in the representativeness of the sample cannot be estimated. However, to reduce bias where possible, these data were weighted to match the demographic characteristics of the 2010 Census and 2017 American Community Survey estimates for adults in the City of Littleton. The primary objective of weighting survey data is to make the survey sample reflective of the larger population of the community. Survey results were weighted using the population norms to reflect the appropriate percent of those residents in the city. The variables used for weighting the household respondent data were gender, age, housing unit type (attached or detached), housing tenure (rent or own), and area of residence. No adjustments were made for design effects. The results of the weighting scheme are presented in the table on the following page.

Table 57: Question 22 without don't know responses

A three-quarters of a cent sales and use tax rate increase was approved by voters in 2021 and is expected to generate more than \$9 million a year to fund capital improvements throughout the city. Municipal bonds are commonly issued by cities to finance large capital projects sooner rather than waiting for the revenue to accumulate. The city may ask voters to consider a future ballot question that would allow it to issue bonds to fund capital projects with the debt paid by the revenue from last year's sales tax increase. Verbatim Responses

Following are verbatim responses to open-ended. Because these responses were written by survey participants, they are presented here in verbatim form, including any typographical, grammar or other mistakes. Within each question the responses are in alphabetical order.

Question 2. What are your reasons for living in Littleton? (Please select all that apply.) (“Other” responses.)

- 5 years ago I was squeezed by a greedy landlord and found it cheaper to buy, but had to do it in a hurry. If I had more time I probably wouldh't have chosen Englewood. It's too noisy for me (noise from trains, Santa Fe Drive, helicopters at all hours of the night.)
- Close proximity to parks, trails, and open spaces
- Close to work
- Close to work
- Good bike trails (need better on-street protected bike lanes, though) and access to light rail transit/buses
- High Line Canal Trail, Lee Gulch Trail and South Platte Park are all nearby for daily 6 to 7 mile walks. Historic downtown nearby makes Littleton seem like a small town within the Metro area
- I love that it has small town feel with access to everything the big city has to offer so close.
- I was able to afford my home when purchased in 2014 when my work office was in Highlands Ranch.
- It has a great history, parks, downtown. Up to the year 2000, the city community was a very forward thinking and risk-taking, and a strong regional leader.
- It has easy access to the RTD-Denver light rail
- Job is close by...no need to commute
- Parks, trails and the abundance of small businesses
- Small town feel & ambiance not over crowded
- Walkability
- Walking/biking potential
- We moved here 17 years ago from Denver. It was affordable yet accessible to downtown Denver with lightrail.
- We're close to an excellent library (Bemis) and the historical museum and parks.
- Wife lived here
- Wonderful view of the Mountians

Question 4. Please identify up to three issues you believe are the most pressing issues facing Littleton in the next two years. ("Other" responses).

- Affordable housing
- affordable housing
- Affordable housing for young couples/new families. Even more safe walking and biking options. Permanent public restrooms or port-a-potties in all of the parks.
- Allowing homelessness's and beggars
- Begging, "homelessness" and drug addiction
- Bike lanes on major streets like Littleton Blvd
- City council saying yes to about every mega developer, scraping 100 yo buildings, not saying NO to more growth - more more more more more does not translate to better anything, in fact, the opposite, the more more more that comes here, the worse the quality of life. Focus on what WE HAVE and make things better, stop adding more apartments, more chains, more of everything else and then not doing anything about the roads - just need to look at the disgusting Grove that was built, hundreds of people living there, and now we have to stop every time someone wants to cross the street, more cars, more traffic, less parking, Making littleton better doesn't mean bigger!
- Community development has urbanized our Little town and made it feel like every other generic town on the front range. It used to be unique! Growth is completely unchecked with multifamily homes going up where single family homes used to be. Sewer lines and roadways are in desperate need of complete overhaul. Alcohol and marijuana sales are now allowed everywhere (voting on alcohol sales at convenience stores in underway now too). When I moved here, you couldn't even buy alcohol on Sundays, which is what I prefer. Crime has significantly increased and I no longer feel safe walking through my neighborhood at dawn or dusk with homeless people living on and near trails. I have been living in Littleton for 27 years (grew up in Boulder) and I'm only 45 yo but I miss the safety, peace, tranquility and quality of life that Littleton used to offer!
- conscious development - not letting South Suburban drive open space and park development and not letting developers drive major developments like Aspen Grove, Ensor, etc
- Continue to support small town culture and monitor for practical growth vs. the concept that more is better. I understand financial considerations but a more populated Littleton has some negatives as well as positives.
- Cost of living
- Cost of living
- Developers and the city seem too interested in high density apartments and not much attention to the infrastructure that supports our city.
- environmental sustainability

- Ever-increasing cost of finding a home here -- and lack of vacant homes/rental apartments. Not enough home building and apartment building going on. Too many NIMBYs blocking meaningful housing availability.
- Homeless encampments
- Homeless people in the parks is frightening
- Housing affordability
- How to manage growth, i.e. single family homes vs apartment buildings; low rise vs high rise.
- Keep more homeowners in their homes (not corporations). More corporations are buying up housing and converting them to fulltime rentals, long term and short term. This erodes at communities and makes housing impossible for young families to afford. We need to provide all means to support and protect people, so they can afford to buy and own a home in which they may live. Keep short term rentals but require that the owner lives in the home. Do not allow absentee owners to operate short-term rentals. Long-term rentals should also have higher standards of care and upkeep; because those who own/operate these rentals will put the BARE MINIMUM amount of money into their profit-making machines. Homeowners, in contrast, who rent space in their homes use that income to make improvements and achieve financial goals, like paying off mortgages and making efficiency upgrades (solar, etc).
- lack of diverse housing options - specifically affordable housing
- Limit apartment construction.
- littleton is a dying disfunctional city. old retail sits while the city gives no direction for redevelopment. old commercial and residential areas of Englewood are thriving Sheridan redeveloped a dump and littleton can't figure out what to do with an old Safeway or a sod farm. The Marathon property sucks because of the retail restrictions on Broadway that looked good on paper but suck in reality. there could have been a Lowes there but big box retail was bad. now the district can't pay its debt so it is Centennial Downs revisited. Aspen Grove will die without proactive city planning. not financial support but work out a reasonable redevelopment plan and get it going before it is too late.the Platte river open space should have trails and be open for use not fenced off with no access. get over the protectionism.
- Maintaining support of local businesses
- maintaining the population and not promoting high density housing
- Need more affordable housing & mixed used retail/ living areas
- Need more housing options – price, type. We have a virulent group of NIMBYs who work hard to prevent this from happening.
- Need to restrict building heights to 4 stories and limit high density housing.
- Noise levels are unacceptable
- Over development of housing
- People experiencing homelessness on street corners and in parks - many seem in need of mental and physical help.

- Price of old homes is outrageous
- Public Transit, bike, and walking infrastructure as it relates to public health, neighborhood image, and traffic reduction
- Residential growth plan for the city seems to be out of control allowing too much large high density development
- Retail Property Development and Affordable Housing
- Schools/Education quality AND homelessness
- Sewer maintenance fees are too high for seniors on a fixed income. Long-time senior residents can't afford to stay in their homes. There should be discounts for seniors to help them to be able to keep their homes in Littleton. Also too much growth and expensive-style businesses coming in trying to be come like Cherry Creek rather than affordable home-town businesses. Cramming too many people into small areas is spoiling the Littleton I've lived in for over 40 years. It's sad what is happening to the community for the sake of making more money. We are being sold out.
- Shouldering the responsibility for what should be an icon of the city. in the refurbishing and care of the Geneva Village complex. This should be a city treasure and a model for other senior living communities. The village has been there since I was a boy 65+ Years. It has along and strong history that should be preserved.
- Street Racing terrible on Santa Fe, Need more new AFFORDABLE housing/apartments....not UNAffordable new apts being built
- too much new housing
- Ugly overdevelopment. No business development in fact, City Council builds cheap apartments rather than commercial dev creating jobs for residents.
- Unchecked/unpunished speeding along major streets - Mineral, Broadway, Bowles -
- Walking and biking infrastructure

Question 25: Other topics you would like to receive information about:

- Affordable housing solutions
- All school issues need to be transparent. Schools should never be able to hide issues.
- any community health and sustainability initiatives
- Community events
- Development/density issues. Historic Preservation. How City Gov. is spending money,.
- didn't mean to click
- Don't know. Protecting citizens' private property and rights should be paramount
- Efforts to remove homeless encampments
- Email it all

- How citizens of Littleton and the city of Littleton can support environmental and climate change issues.
- I don't know what they would be.
- I would like information about how the scooter situation is being handled. We've had scooters abandoned in our neighborhood for almost a month.
- I'd love to see metrics comparing finances between Littleton and neighboring cities and the ratios for the various budgets.
- IGA renewal with South Suburban Parks and Recreation. SSPR get 3-4x as much tax revenue as the city yet there is a match requirement for capital projects - projects that are NOT NEEDED. SSPR just wants to spend so they can raise our taxes. Please consider leaving SSPR. They get too much money from Littleton. And they will only get more with property values going up, yet they keep raising the mill levy rate.
- Large commercial and apartment ordinance approval process
- Littleton's calendar of events (government and "social" needs to be more user-friendly. It takes too much work to find which events matter, because useful information is buried in a pdf file that in a link that's linked in a calendar event. Comes across as a very opaque communication style.
- Major construction & road repairs
- People want to know when businesses come and go - so they don't drive to a closed restaurant, for example.
- platte canyon traffic has increased and caused lots of back ups
- Progress on improving water quality, what to do if my water tastes bad, improvements in broadband access, progress on reducing noise levels.
- Reliable info re Littleton development--residential, commercial, traffic, finances--and validated trending for changes in all the foregoing, in the city, county and state.
- The city and county procurement process used. The solicitation activity, and any award decisions.
- The results of these citizen surveys and how the information is actually being used. I'd like to know the percentages of citizens answers on these issues, and if they really made a difference to decisions being made by City Council.
- Traffic and speeding vehicles.
- What measures are being used to manage efficient municipal operations

If you selected an "other" way, in what other way did you hear about this survey?

- city council member
- City council member forwarded it to me
- Councilmember sent it to me

- email from Paul Bingham
